

Axilix is an agile team of exceptional engineers and product designers with offices in NYC, Providence and Zagreb. We help businesses of all sizes design & build impactful software products. Our clients range from well-funded startups to large enterprises. We embrace agility and collaboration to continuously drive business results.

We are known for our friendly work atmosphere. We regularly host events, such as meetups, workshops and conventions. We also give back to the community by sharing our learnings through our blog and free workshops.

Axilix begins and ends with our team and we're committed to building a world-class company.

Job description

We're looking for a self-motivated Junior QA Engineer who will be responsible for delivering high quality products into the hands of our clients and keeping them delighted. As a Software QA Engineer at Axilis, you'll be working with a team of extremely talented engineers and making sure our solutions are stable, consistent, reliable, flexible, secure and easy-to-use. **We don't care if you're experienced or not, as long as you are capable and willing to learn.**

Your main responsibilities will be:

- Designing and implementing various test strategies for new and existing features
- Defining and executing test plans and test cases
- Devising methods to improve efficiency of testing, with emphasis on test automation
- Collaborating with the development team to successfully resolve problems found during testing
- Promoting an overall culture of quality

We expect you to

- Have a keen eye for details
- Be an analytical thinker and a strong problem solver
- Have general understanding of web application architecture
- Be comfortable and adaptable in a fast-paced and informal environment
- Have the ability and willingness to learn quickly and share knowledge with other team members

What we offer

- Working on challenging and interesting projects
- Using latest technologies and tools

- Great new office with a lot of comfortable space
- Entrepreneurial atmosphere
- Macbook or a Windows laptop + 2 external displays
- Competitive salary
- Flexible working hours
- Chance to work remotely

Take the chance to amaze us with your resume. It will be worth it. We'll be in touch!
